

Admissions requirements for the Bachelor of Science in Electrical Engineering (Computer Engineering Concentration) program are listed on the College of Science and Engineering's, Engineering & Computer Science' Admissions page (<https://www.cose.txst.edu/sand-box/admissions-requirements.html>).

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. For transfer students, 30-31 semester credit hours may be transferred from a Texas public institution of higher education for the Electrical Engineering Field of Study and be applied to the Bachelor of Science degree with a major in Electrical Engineering at Texas State University. More information about the Field of Study (<http://mycatalog.txstate.edu/undergraduate/general-information/academic-policies/texas-legislative-requirements/>) is available in the Academic Policies section of this catalog. The transferable Texas Common Course Number (TCCN) is listed below the Texas State University course number in the following course list.

3. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
4. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course.
5. Nine semester credit hours must be writing intensive (WI).
6. All students in the Electrical Engineering degree programs must complete Electrical Engineering (EE) course prerequisites with a grade of "C" or higher.
7. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the

absence of such high school language, two semesters of the same modern language must be taken at the college level.

8. The Electrical Engineering degree programs include all the courses required for an Applied Mathematics minor.
