

Minimum required: 129 semester credit hours

Admission Requirements

Students must be qualified to enroll in Texas State's Calculus I course to be admitted to the program. Please see the College of Science and Engineering's Engineering & Computer Science Admissions Requirements (<https://www.cose.txst.edu/cose-majors/admissions-requirements.html>) page for details.

General Requirements

1. The general education core curriculum courses are listed in the degree plan below along with the statewide component code number. See the General Education Core Curriculum (<http://mycatalog.txstate.edu/undergraduate/general-education-core-curriculum/>) section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
2. Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
3. Nine semester credit hours must be writing intensive (WI).
4. Students entering Texas State with fewer than 16 credit hours completed after high school graduation will be required to take US 1100. All others will be exempt from taking this course.
5. If two years of the same language are taken in high school, then no additional language hours will be required for the degree. In the absence of such high school language, two semesters of the same modern language must be taken at the college level.
6. The Industrial Engineering major includes all the courses required for an Applied Mathematics minor.
